

Dear Dr. Henney,

7/18/99

Antibiotics in the 1950's were an incredible boon, a gift to mankind. Their bright promise has been dimmed by overuse; perhaps the most inexcusable abuse of this vital, and limited, resource, is the crass use of ~~antibiotic~~ ~~sub~~ ~~sub~~ ~~sub~~ antibiotics in animal feed - to save livestock producer money!

I support the CSPI petition, to end the tragic waste of medically important-perhaps irreplaceable - antibiotics to promote growth in animals.

Sincerely yours,

Rhoda Freier Mbe. Freier
